SITUATION SUMMARY

June 2021 Fires

On 07/16/21, Governor Gavin Newsom issued an emergency proclamation for Siskiyou County due to the Lava Fire and Lassen and Plumas counties due to the Beckwourth Complex Fire. Both fires have destroyed homes, caused the evacuation of residents and damaged critical infrastructure. After the state secured federal assistance to combat the Lava Fire last month, Governor Newsom was briefed by fire and emergency management officials in Siskiyou County and visited a joint fuel reduction project in the region. The text of the proclamation can be found by clicking [here](#).

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- Red Flag Warnings have been issued for much of Northern CA between Sunday morning until Monday night. With the very dry fuels, any thunderstorm has the potential to ignite new fire starts.
- Red Flag Warnings have been issued for the northern San Joaquin Valley and adjoining foothills for Sunday evening through Monday morning.
- Fire Weather Watch remains in effect for thunderstorms with abundant lightning and little rainfall across portions of interior northern California Sunday through Monday. Gusty and erratic winds are possible near any thunderstorms.
 - Best chance for thunderstorms will be Sunday night into Monday, mainly over the mountains with an isolated potential in the Valley.
 - Highest Threat is Dixie Fire in Butte County.

SOUTHERN CALIFORNIA

- Thunderstorms possible across portions of Southwest CA Sunday and Monday. Increased fire ignition risk due to lightning strikes and dry fuels.

<http://www.wrh.noaa.gov/hazardSummary/?state=ca>

Active Weather Warnings, Watches and Advisories by County:

<http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

WEATHER KEY POINTS

07/18/21 - 07/24/21

Sunday-Monday

- Thunderstorms will increase across much of the state Sunday and Monday
 - **For northern and central California, some storms will be dry, which could lead to new lightning-caused fire starts**
 - Because of this concern, fire weather conditions are considered critical for Sunday and Monday across much of Inland and portions of Coastal Region, as well as far northern portions of Southern Region
 - Storms could also produce locally very gusty winds, further increasing the fire weather risk
 - **This is NOT expected to be a repeat of the August 2020 dry lightning event, but any dry lightning is still a significant concern because of the persistent dry conditions across the state**
 - Across much of Southern Region, these thunderstorms are expected to be wetter, and a few storms could produce heavy rainfall and local flash flooding
- Critical fire weather conditions are also expected today in northeastern California due to strong gusty winds and low relative humidity
- Low to moderate heat impacts will continue across Inland and Southern Regions, with most temperatures only a few degrees above normal for mid-July

Tuesday-Saturday

- A decrease in thunderstorm activity is expected for Tuesday and Wednesday, with any storms expected to be isolated in nature and primarily over the Sierra and Southern Region mountains
 - Additional moisture could potentially move into the state late in the week and bring more scattered coverage of showers and thunderstorms
- Fire weather conditions will remain elevated through much of the week, with dry conditions continuing in most locations and locally breezy winds possible, especially in the mountains and foothills
- Low to moderate heat risk impacts will continue across primarily inland portions of Southern Region, with a bit of a cooling trend expected for the end of the week

Cal OES LAW ENFORCEMENT MISSIONS

- **2021-LAW-67105, 07/17/21, 0000 hours:** Mono County Sheriff assistance in the rescue of 4 subjects stranded in a remote area of Easter Mono County. The subjects comprised the crew of a US Navy MH60 Helicopter, Longhorn 2, stationed at Naval Air Station Fallon NV. The helicopter had crashed on July 16. The crew was not injured but were stranded. NAS Fallon attempted to rescue the crew that evening using a helicopter similar to the one that crashed but the extreme elevation prevented that. Some basic supplies were dropped to the stranded crew and they spent the night in the field. Mono County Sheriff Search and Rescue were contacted. Mono requested a National Guard CH47 helicopter to insert a SAR technical rope rescue team into the area to complete the rescue and extract the subjects. **Update:** The larger CH47 Chinook helicopter from the National Guard was able to insert the Mono SAR team and their equipment. The 4 stranded subjects were retrieved and evacuated out. **Mission Closed** <https://www.navy.mil/Press-Office/Press-Releases/display-pressreleases/Article/2698224/navy-helicopter-crew-rescued-after-crash-near-mt-hogue-ca/>
- **2021-LAW-67023, 07/15/21, 1858 hours:** Contra Costa County requested Human Remains Detection dogs for a search in the Orinda area. A subject hiking in the area had located a human bone and Contra Costa personnel requested a search for additional remains. The Cal OES Canine coordinator has secured the requested search teams for a search on 07/17/21. **Update 7/17:** Searching completed with no additional evidence found. **Mission Closed**
